MINUTES

The Campbell County Board of Education met in a Special Called meeting on Thursday, May 28, 2026, at 5:00 p.m. in the lower-level courtroom of the Jacksboro courthouse. The following school board members were present: Crystal Creekmore, Ryne Cummins-yes, Randy Heatherly, Brandon Johnson, Ronnie Lasley, Brent Lester, Sharon Ridenour, Jamie Wheeler, and Chairman Jeffrey Miller. Board member Lisa Fields was absent from the meeting. Director of Schools Charlotte McCoy was present, and Gail Parks kept the minutes.

- I. Meeting called to order.
- II. Roll Call.
- III. Public Comment (Max 2 speakers/Viewpoint & Max 3 Minutes/Speaker. Nothing at this time.
- IV. Approval of Agenda.

Motion by Creekmore, second by Wheeler to approve the Agenda.
Creekmore-yes, Cummins-yes, Fields-absent, Heatherly-yes, Johnson-yes, Lasley-yes, Lester-yes, Ridenour-yes, Wheeler-yes, Miller-yes. Motion Passed.

- V. Discuss and take any necessary action regarding Jacksboro Elementary School project.

Chairman Miller distributed informational packets regarding the project and stated that approval to pay application #9 had been received from the architect. Attorney Cantrell stated he wanted the board to take a vote on application #9 because the board voted not to pay. He requested once this was done to resume for the architect to go back to the way it is approved. Attorney Cantrell stated there were other issues that need addressing. Under the contract, there is a mitigation clause where if the architecture, the contractor causes something that causes damage to the construction process they have an opportunity to mitigate it which means they fix it at their cost. The board of education insurance has denied cost of repairing the gymnasium floor. A structural engineering firm has assessed and determined that it was not the design. The estimated cost to repair the floor is \$100,000. Since the insurance carrier has denied the claim, this is the responsibility of the builder. Attorney Cantrell stated he had asked on multiple occasions to be provided with the location of where the dirt was removed and people don't think about how much value is in soil that is removed. This is a very valuable commodity, and you just can't take it away.

SPECIAL CALLED MEETING

It was requested of the location of where the dirt was taken and asked whether or not any compensation was paid for the dirt. Who authorized this? It has been said it was moved through the TDOT facility and this needs to be addressed. Other than this issue, Attorney Cantrell agrees with the Lewis Group that the pay application once started needs to be done on a month-to-month basis. Attorney Cantrell addressed another issue by saying the board was getting hammered on social media with stuff. There is an inherent idea of fair dealing with practices that the board is a governmental entity. Anyone can be criticized for anything. There is a guy here filming you and he's filming editing it down and putting it on social media. You can be criticized but you can't get out and make false allegations. If this is being done for ill purposes, Attorney Cantrell thought it would be a violation of the contract. He stated if this continues it would be of council to take the appropriate legal action to shut down. Benefiting by making false allegations is just ridiculous. Attorney Cantrell stated he had been complementing some of the stuff that they had done and felt this needed to be addressed as well. The third item discussed by Attorney Cantrell was that it was a great opportunity for the contractor and architect to discuss why now pay application has been approved. It was asked about the cost of concrete of Attorney Cantrell. He contacted the largest concrete supplier in the area, and it was confirmed that the normal price of concrete fluctuates between \$50.00 and \$170.00 per yard and this had been expanding in the last 6 to 9 months. The board had photographs of the brick and mortar. Attorney Cantrell stated this was inexcusable for the brick and mortar to look as photographed but stated there is a way to it. Board member Johnson stated MS. Gaylor had notarized the document and it is someone of company signature and from his research, this was not appropriate. Attorney Cantrell stated there is a difference between government contracts and if this were residential job it would be totally okay, but it is highly unusual for a corporate officer that's also potential owner of the company to notarize their own documents. It's one of these things that is illustrated while we constantly are having to educate this contractor as to how to follow a government contract job. Discussion continued with Chairman Miller asking the question regarding if there was an additional \$100,000 worth of concrete done. Mr. Thomas stated not concrete. Chairman Miller state it was showing it was on paper. Director McCoy presented a slide presentation on the current status of the project.

SPECIAL CALLED MEETING

Items such as different colors of mortar with brick, the floor bucked, door handles not installed, and a door that has an opening at the bottom for things to get inside the building. Director McCoy is concerned with the flooring in the cafeteria.

The gym bleachers were to be installed on May 15th, as of May 28th they are not installed. Mr. Thomas was asked if there was any design specification for there to be a different color of order of the mortar. Mr. Thomas replied to no. Chairman Miller again stated the color of mortar was not acceptable because when people pull up and see a \$2.4 million dollar project the brick and mortar should match. Chairman Miller asked Ms. Gaylor if she was planning on mitigating the gymnasium floor. She replies she had not received a copy of the report from Corum Engineering on the floor to be investigated and have their own company do their own testing. Their company has not been provided with this information. Attorney Cantrell stated the information had been provided to their attorney Steve Hurst, but he would provide it to Steve Hurst again. Attorney Cantrell discussed a Prompt Pay notification that was sent to the board of education by GCE, and stated their attorney was not aware this had happened. Attorney Cantrell stated he had made a request for release of the notification letter due to you not being able to make payment if legal action under the Prompt Payment Act. Another request was with the stop work notice which can't be done on a governmental job, but they continued to work. Attorney Cantrell stated you cannot do the Prompt Pay Act without requesting mediation and you go on social media and call these guys liars, and they haven't done anything to get involved in the project. These two items must be withdrawn before any sort of payment can be issued. As of today, we have not received the letters. What is needed is the letter of the Prompt Pay Act and Undo the Stop Work Order. Board member Johnson asked what percentage of the project is complete to Ms. Gaylor. Ms. Gaylor responded to 98%. Board member Johnson asked Mr. Thomas the same question regarding completion of project, and he responded 80-85%. Board member Johnson stated this was a difference.

Motion by Miller, second by Wheeler to table discuss and take any necessary action regarding Jacksboro Elementary School project until the June meeting. Creekmore-yes, Cummins-yes, Fields-absent, Heatherly-yes, Johnson-yes, Lasley-yes, Lester-yes, Ridenour-yes, Wheeler-yes, Miller-yes. Motion Passed.

SPECIAL CALLED MEETING

Board member Johnson asked Ms. Gaylor to explain a specific post regarding students' suffering and taxpayers' paying. Ms. Gaylor stated I think everyone can agree the best benefit for the students is having the school completed, the project done as timely and professionally and correctly as possible. Delays, not at the fault of GCE, have affected that, and in that regard, the students are suffering by not having that facility completed and being able to use the components that were a part of the project. Board member Johnson said, "You said the taxpayers will pay and this sound very threatening to me. Board member Johnson stated he had tried to be neutral and open to hear both opinions and to work for a solution, but we're getting blasted on social media because I've received text messages from fake numbers and this is absurd.

School board went into Executive Session.

Motion by Miller, second by Wheeler to adjourn the meeting.

Meeting adjourned.

Jeffrey Miller, Chairman of the Board

Charlotte McCoy, Director of Schools
