

2026 CANDIDATE QUESTIONNAIRE

- 1) Name: Jack Lynch
- 2) Office sought: Campbell County Mayor
- 3) Political Experience: I have served as County Mayor for four years. I do not consider myself a politician in any sense of the word. I have, and will continue to represent the citizens of Campbell County without pride or prejudice.
- 4) What do you love about Campbell County? I love everything about Campbell County, the people, the places, and the lifestyle. I was born and raised here and still have that connection with the land. Campbell County is a great place to live, work, and worship.
- 5) What is one thing you would work to change about Campbell County if elected? We will continue to work as we have for the last four years. Using partnerships and working together to continue economic development, create real jobs, build infrastructure, and finish the Campbell County Industrial Park. At the same time, our focus will also be on continuing to promote new retail businesses and tourism, and continuing to help our local support systems, such as food banks, shelters, CHET, DHS, and others, because it is all about helping others. There are so many positive things happening in Campbell County if we all can just focus on the positive and change any negativity. Campbell County can continue to be the best version of itself by simply working together. By leaving the negative behind, Campbell County can continue to progress and deliver a better quality of life for all citizens.
